

SciGirls Curriculum Training for School Age Programs

This awesome hands on training will offer engaging science, tech, engineering, and math based activities for upper elementary to middle school kids! Join us at OMSI for a great day of lessons and activities!

SciGirls curriculum works well formal or informal settings and uses accessible and simple materials to create exciting science investigations for kids! SciGirls also offers research based strategies for engaging girls and underserved youth. The SciGirls 7 strategies are proven to excite kids of all kinds about Inquiry based science.

Wednesday, July 6th, 8:00am - 3:00 pm
Oregon Museum of Science and Industry
Auditorium
1945 SE Water Ave, Portland, OR 97214

Training participants will receive 7 hours of Set Two credit from the Oregon Registry in the Core Knowledge category of Learning Environments and Curriculum.

Register online at <http://ngcproject.org/scigirls>
Cost: FREE!

Training presented by
Rachel Kessler
Master Trainer

SciGirls, an award winning PBS KIDS series, website and national outreach initiative, is changing how millions of tween girls think about science, technology, engineering and math, or STEM! In each episode, animated characters Izzie and her best friend Jake find themselves in jams only science can fix. To set things right, Izzie calls on bright, curious real-life SciGirls, who put STEM to work and save the day. Izzie also invites viewers to hang out on the website - pbskids.org/scigirls - a totally safe, social networking environment where girls can play games, connect, create personal profiles and avatars, share projects and watch every episode.

SciGirls is produced for PBS by National Productions and is made possible by the National Science Foundation. Additional support by L'Oreal USA's For Girls in Science program, Northrup Grumman Foundation, and PPG Industries Foundation. SciGirls® © 2013 Twin Cities Public Television, Inc. All rights reserved.
